

Imagine Español

Helping your student succeed at school and at home

Dear Parent or Caregiver,

Welcome! Your student has been enrolled in Imagine Español for the new school year! Imagine Español is an adaptive, interactive program that teaches Spanish language and literacy concepts at your student's level and helps them practice what they've learned. To learn more about Imagine Español, visit www.imaginelearning.com/literacy/espanol.

Your Student's Experience in Imagine Español

Imagine Español uses engaging, interactive games, books, songs, and videos to teach Spanish language and literacy concepts like letters and sounds, rhyming, vocabulary, Spanish-language culture, and more. When your student starts in Imagine Español, they take a placement test which identifies their current skill level and places them on their own personalized learning path. As your student uses Imagine Español, it adapts to their performance level, helping them learn and practice the skills they need.

When your student answers questions correctly, they earn virtual tokens to play additional games, spend time in the Imagine Español reward environments, and customize their avatar. Imagine Español also provides optional audio language support in English if needed.

Using Imagine Español at Home

Your student can access Imagine Español in a web browser from any computer or tablet (no smartphones) by logging in with the URL and login information below. Or you can download the Imagine Learning Student application to Chromebooks from the [Chrome Web Store](#), to iPads from the [App Store](#), and to Android devices from [Google Play](#) and [Amazon](#).

Check help.imaginelearning.com to ensure your computer or tablet meets the minimum technical requirements. To maintain your student's unique, personalized learning path and report accurate growth and progress, only students who are officially enrolled in Imagine Español should use it from home.

Supporting Your Student's Progress

You can help your student succeed by being involved in their Imagine Español experience. Follow these recommendations to get the most of out of Imagine Español this school year:

- **Encourage your student to use Imagine Español at home.** Encourage your student to be thoughtful and attentive as they play the interactive activities.
- **Review any stories or printouts that your student brings home from school.** Ask your student to read the stories aloud to you and review the skills taught in any printouts.
- **Review your student's progress with their teacher.** Discuss your student's overall progress and growth, test results, and skill areas where your student may be struggling.
